

Marion LEBEAU

Gap-year engineering student seeking a 6-month internship (Sept. 2026 – Feb. 2027) in renewable energy or eco-designed materials.

📍 Nantes ✉ marion.lebeau@imt-atlantique.net ☎ +33 6 07 84 07 44 in Marion LEBEAU

Education

MS	IMT Atlantique , Nuclear Engineering	since September 2024
	• Coursework: Nuclear Physics, Nuclear Engineering, Fuel Cycle Management, Reactor Operation, Heat Transfer, Steam Turbines, Propulsion Systems, Generation IV Reactors, SMRs, Fluid Mechanics	
BS	Université de Picardie Jules Verne , Materials and Energy	September 2023 – June 2024
	• Coursework: Materials Science (metals, ceramics, polymers, composites, glasses), Materials Processing and Characterization, Electrotechnics, Power Electronics, Energy Conversion, Renewable Energy, Numerical Mechanics	
BS	Université Paul Sabatier Toulouse , Mechanics and Physics	September 2022 – June 2023
	• Coursework: Solid Mechanics, Dynamics of Solids, Electromagnetism, Mathematics	
BS	Military High School of Autun , Preparatory Program in Mathematics, Physics and Industrial Sciences	September 2021 – June 2022

Work Experience

SAX'Auto Garage , Automotive Mechanic Intern (IMT Atlantique)	La Chapelle de Guinchay, France
• Performed basic mechanical repairs and routine maintenance • Assisted with engine disassembly, assembly, and mechanical servicing • Applied mechanical fundamentals to real-world vehicle systems	June 2025 – July 2025
Ministère des Armées , Reservist	Nantes, France
• Participated in the Sentinelle mission during the Paris 2024 Olympic Games • Operated in safety-critical and regulated environments • Managed administrative and HR-related processes within the military chancellery	since July 2021

Projects

Decarbonized Hydrogen Propulsion IMT Atlantique – 2025
• Performed bibliographic research on hydrogen propulsion technologies • Developed a business model for a hydrogen-powered marine engine range • Evaluated economic feasibility and decarbonization potential
Pigott-Type Wind Turbine IMT Atlantique – 2025
• Designed a Pigott-type micro wind turbine using AutoCAD • Performed CNC milling and 3D printing for component manufacturing • Assembled and tested a functional prototype
Bioclimatic Earth-Sheltered House Design Université de Picardie Jules Verne – 2024
• Autonomous bioclimatic design (energy, water, electricity, waste) • Passive thermal and energy efficiency strategies • System-level approach under technical and budget constraints • Scale model realization and final cost estimation

Volunteer Experience

Fédération des associations, Treasurer

- Financial supervision (13 student associations)
- Cost Analysis
- Budget forecasting
- Financial reporting

Nantes, France
February 2025 – February
2026

Bureau des Sports (BDS), Events team member

- Event creation
- Inclusive sports events (parasport, health awareness)
- Sports tournaments
- Themed sports events and sport nights

Nantes, France
February 2025 – February
2026

Languages

French Native

English B2 – TOEIC 775/990 (2026)

German A2 (8 years of study)

Spanish A2 (1 year of study)

Sports

Football

- Regional level (goalkeeper)
- Certified football referee
- Team Captain

Swimming & Lifesaving

- Pool Lifeguard Certificate (BSB)
- Aquatic First Aid
- Competitive swimming background
